

## DIVISION 3.0200 AGRICULTURAL AND RESIDENTIAL ZONING DISTRICTS

This Division sets forth detailed descriptions of the agricultural and residential zoning districts and their respective dimensional and bulk regulations, requirements, and design standards. The various “Open Space Subdivision” options indicated within some zoning districts are “open space ratio, “ or OSR, driven. While the overall maximum gross density stays essentially the same within each zoning district, as the minimum OSR increases the maximum permitted net density increases. Under the “Conventional Subdivision” and other options presented in some of the zoning districts, the site intensity and capacity calculations, as well as the natural resource protection standards and guidelines set forth in Divisions 3.0400 and 4.0100 of this Ordinance, shall be followed. The agricultural and residential zoning districts are generally organized into a residential density hierarchy.

### SECTION 3.0206 R-1 WATERFRONT RESIDENTIAL NEIGHBORHOOD CONSERVATION DISTRICT

- A. District Intent: The R-1 District is intended to:
1. Be used exclusively in existing residential subdivisions (minor and major including certified survey maps) located in the existing waterfront areas of the Town.
  2. Accommodate existing developed areas which are existing lots of record located along shorelines and open waters only and is not to be expanded into areas not already subdivided.
  3. Minimize nonconforming and substandard lot sizes as such lots would become if placed under more rural- or suburban-orientated land use (and ultimately zoning) classifications. The number of existing substandard lots is to be limited through the combination of abutting substandard lots into a single lot under the same ownership.
  4. Provide for the minor infilling of vacant or redevelopment areas consistent with this district and the established character of the neighborhood as defined by earlier approved subdivisions and certified survey maps.
  5. Be served by either public sanitary sewer facilities or by on-site soil absorption sewage disposal systems and private wells.
- B. District Standards: The R-1 District is further intended to have the development standards as set forth in Table 3.0206. Those developments served by on-site sewage disposal systems must meet all requirements set forth under Section 2.0103 of this Ordinance.
- C. Permitted, Accessory, and Conditional Uses: See Section 3.0502, Division 3.0600, Section 3.0601, Section 3.0602, Section 3.0701, and Section 3.0702 of this Ordinance.
